Ukraine's Pivdenoukrainsk nuclear power plant has been damaged by a Russian missile attack, Ukraine's nuclear energy agency has said.

Security camera video shared by Ukrainian President Volodymyr Zelensky on Monday showed a large explosion close to the plant, which is the second largest in the country.

Energoatom said the blast shattered windows and damaged buildings at the facility in the southern Mykolaiv region.

metres away, leaving a crater two metres deep, the agency said.

In a message posted on his Telegram channel, President Zelensky said: "Russia endangers
